To the DAILY GAZETTEER.

October 20, 1740.

SIR,

IN the *London Evening Post* of last *Thursday* is the following Paragraph:

'All our Letters from *Bourdeaux* are fill'd with melancholy Accounts of the Misery of the *Frenchmen* there, thro' the Scarcity of Provisions; and that when the last Poſt came away, they had not a Barrel of Beef in that great Town; but that they hourly expected Relief from *Ireland*. Their Expectations, however, will be in a great Meaſure defeated by the general Embargo.'

Who but ſuch a Writer as *that*, could have forborn, on this Occaſion, to add, *Thanks be to the Vigilance of our Governors*. This is nothing but what common Decency required from one that is a Diſperſer of News amongſt the People; but we find nothing is ſaid on that Side of the Queſtion, tho' there is ſo much Room for it. Little do the People know how much they are oblig'd to the Adminiſtration for the laſt Orders that were ſent all over the Kingdom ſome Months ago, to all the King's Officers in the Sea-Ports, and to all Magiſtrates, to prevent the Exportation of Corn. Had it not been for that Prudent Care, Wheat, in all Probability, would have been now at Fifteen or Sixteen Shillings per Buſhel, as it is at this Time in *France* at above Thirty. I muſt own I was lately extremely ſurpriſ'd, at a Sea-Port in the Weſt, where I ſaw with what extraordinary Care the King's Officers attended to their Duty in this Important Buſineſs. The Matter was this. A Merchant from *Newcaſtle* had ſent a Ship loaded with Coals to a Place juſt by *Southampton*, and deſired his Friend, who was to diſpoſe of the Coals, to ſend him back ſix Sacks of Malt, by the Return of the Ship; and told him that the Captain would ſay the Malt was for his Proviſion homewards. When the King's Officer ſaw the Six Sacks in the Ship, and was told by the Maſter what I juſt mentioned; What, Six Sacks of Malt for your Proviſion back to *Newcaſtle*, ſays he? Carry Four of them immediately on Shore again, or you ſhan't ſtir from this Place: Upon which the Captain carried them back to the Perſon from whom he had them.

I confeſs, I could not but very much wonder at this, not having heard of any ſuch Thing before; and I ſtill wonder'd more when this Perſon told me, That for ſome Months paſt no Baker, Maltſter, Cornfactor, or other Perſon whatever that deals in Corn, could go into a Market and aſk the Price of a Sack of Wheat, without the Licenſe of Three Juſtices of the Peace; and when he had bought it, if he came any thing nigh to the Shore with it, ſuch is the Diligence, ſuch the Watchfulneſs (in Obedience to the ſtrict Orders from above) of thoſe Officers, who are repreſented continually *as a ſuperfluous and even dangerous Body of Men to the Nation*, that it is, in a Manner utterly impoſſible to ſend One Buſhel of Corn out of the Kingdom.

Thus we ſee by whom it is, under God, that we have been delivered from One of the greateſt Calamities any Nation can groan under, even *Famine* itſelf, and its uſual Concomitant the *Peſtilence*: And yet are the People daily and hourly taught to reproach, to vilify, to calumniate, thoſe to whom they are ſo highly obliged: Surely this is not right. I am,

THE King has publiſh'd an Edict, granting Leave to the Mennonites to come and ſettle in Pruſſia, who are an Anabaptiſtical Sect, Followers of Mennon of Frieſland that lived in the 16th Century; who tho' he was not the firſt of the Anabaptiſts, yet was the firſt that threw off the Enthuſiaſtick Revelations and Millenary Opinions of the original Sect. He taught, and theſe hold, That the New Teſtament is the only Rule of Faith; that the Terms of Perſon and Trinity being not to be found therein, were not to be allow'd; that there is no Original Sin, &c. They are for the moſt extenſive Liberty of Conſcience, admitting all to their Communion that believe the New Teſtament, and are ſplit into many little Sects, ſuch as Arians, Socinians, and moſt Uniarians. The chief Diviſions are call'd Galenites and Collegiates, of whom the latter uſed to meet twice a Year at Rynsbourg, a Village two Leagues from Leyden, where they receiv'd the Sacraments.

ANTI-SYPHILICON.

THE only short and most infallible Cure in the Universe for the VENEREAL DISEASE, from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant VENUS, and the very Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicks on one Hand, or a seminal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Pox, attended with Nocturnal Pains, universal Scabbing, &c. and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inunction, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconveniency, as to bespeak it the only appolite Remedy & true Venereal Antidote in the World; and this some Thousands have found their great Joy experience'd.

It is pleasant to take, occasions no Sickness or Confinement, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Infection, may by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicks of former Injuries, may by a few Doses of it intirely free themselves from all Suspicion of that Kind; for it assures no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on your Account, in all scorbutick, scrophulous, and even leprous Eruptions or Foulnesses of the Skin, Glandulous Swellings and Impurities of the Juices, it does more by one Dose than any other Medicine yet known can by ten.

The Price of this most Noble Anti-Arthritick is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being sufficient in most Cases to accomplish the Cure, is not a tenth Part of its Value, and is appointed by the Author to be had only at Mr. Rainford's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is entirely rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Secret.

The most Fam'd and long Experienced Chymical Drops For ASTHMA's and CONSUMPTIONS,

That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry, and his Predecessors, in Boar's-Head-Court, *Fleet-street; and, since Mr.* Parry's *Decease, have been and still are sold only by Mr.* Read *for* 3 l. 6 d. *a Vial, at his House in* White-Fryars. *(N. B. You are in just by the* Sun Tavern *in* Fleet-street, *and it is the great Corner House in* White-Fryars: [AND] READ, *in great Letters, is wrote over the Door.]*

They are a most Incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA *of the longest standing:*

And of all Sorts of CONSUMPTIONS, *how ever far advanced, as not to be cured by any other Medicine in the World.*

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating Fit of an Asthma, and make a perfect Cure in a very little Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest Standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Straitness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, infallibly prevent one when feared. They are also exceeding restorative and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than as mentioned above.

And by Parity of Reasoning this most excellent Medicine (and well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin-Cough, and Hooping-Cough in Children, having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and therefore reject the same Efforts of all Counterfeiters or Imitators) for the Ailments above-mentioned, and allowed to be so by the most Judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Publick for Common Good.
